

Processor Settings  
**CM141CC**

**Crossover**

	Frequency	Slope
CM141CC (single) - HPF	100Hz	24dB Oct. (4th order) Butterworth
(4 from CM208W series High Pass out in biamp mode) - HPF	100Hz	24dB Oct. (4th order) Butterworth

**Limiting**

RMS Voltage

See Application Note  
"Setting System Limiters"

CM141CC (single) 20 Volts, 8 msec attack, 128 msec release, 100:1 ratio (recommended predictive peak stop @ 40 Volts or amp clipping)  
(4 from CM208W series High Pass out in biamp mode)

40 Volts, 8 msec attack, 128 msec release, 100:1 ratio (recommended predictive peak stop @ 80 Volts or amp clipping)
